

I am writing to the FCC in response to the LPFM Localism Campaign. I am a listener of Air1, a national radio network that uses FM translators. Air1 is a wonderful station, really the only one I listen to here in Vermont. Without Air1, I doubt I would listen to the radio much. Air1 is the only station I can count on to be appropriate and enjoyable. Please keep FM translator around. Please do not let LPFM take over FM stations. Thank you very much for your time.
